

Objectives of CycoVet

Define the appropriate and necessary skills and competences for cycling instructors;

Develop a coherent pedagogic methodology and specifications for training materials;

Design, develop and validate training materials, tools and game-based approaches to learning;

Develop a pilot examination scheme for certifying instructors;

Establish links between training programs for cycling instructors and the labour market, through their adoption and promotion by territorial public administrations;

Identify and promote mutually accepted trainers' skills in the ESCO framework

Target Audience of CycloVet

Individuals working as Cycling Instructors
